

An overview of force measurement: sensing methods, multi-axis measurement, dynamic and static measurement, force estimation and applications.

Abdulrahman Albakri, and Ghada Haj Ayoub,

Abstract—The abstract goes here.

Index Terms—Interaction Force, Force Measurement.

I. Introduction

THIS demo file is intended to serve as a “starter file” for IEEE journal papers produced under L^AT_EX using IEEEtran.cls version 1.8b and later. I wish you the best of success.

Michael Shell Biography text here.

II. Force Sensing Methodes

- A. Resistive force tranducer
- B. Capcitive force tranducer
- C. Inductive force tranducer
- D. Piezoelectric force tranducer
- E. Fiber optic force tranducer
- F. Vibrating wire force transducer

John Doe Biography text here.

III. Static vs Dynamic Force Measurement

IV. Multi-Dimensional Force Measurement

V. Force Estimation

VI. Force Measurement Applications

- A. Force measurement in monitoring and testing tasks
- B. Use of force measurement in automated systems
- C. Force measurement in research and development laboratories

VII. Conclusion

The conclusion goes here.
